Brief Characteristics and Target Groups

SECURITY THROUGH INFORMATION

SECURITY INSIGHT

Readers/Recipients

Security executives in the industrial sector, economic sector, associations, public sector; CEOs and security managers of medium-sized companies.

Owners, CEOs and managers of installation companies, planning offices and system houses.

Frequency of Publication

6 times a year

SECURITY INSIGHT makes it a point to provide exclusive media coverage to optimize the information value for the readers. As an opinion leader, the magazine focuses on topics and explains complex contexts and background information which is most relevant for the work of security managers. Furthermore, the magazine provides practice-oriented expert knowledge for installation companies, planning offices, technical experts and system houses regarding all areas of fire protection and security technology.

Amendments of laws, standards and guidelines as well as liability issues are addressed in detail in special columns, just like product news and technical details regarding new processes and systems. The focus lies on future-oriented holistic solutions.

www.prosecurity.de

www.prosecurity.de provides information on developments, trends and solutions in the security industry. The portal offers topical expert information in the areas of public and corporate security, IT security and the security industry, personnel news and newswatches as well as product information and case examples.
